

The logo for FORA, consisting of the letters 'FORA' in a serif font, centered within a dark blue square. The square is divided into four quadrants by a thin white cross.

FORA

Welcome

Anders Hoffmann, Ph.D.
Creative Director, FORA

The Mission

- **ICE provides a foundation for fact-based entrepreneurship policies**
 - ICE projects are not aimed at producing new data, but rather to critically demand and buy accurate entrepreneurship data from other respectable sources designed to meet the specific needs of the member countries.
 - The consortium also initiates comparative policy analyses in order to improve our understanding of the functioning of entrepreneurship policies.

The past and present

- In October 2005 we all agreed on the need for internationally comparable data of entrepreneurship performance

➔ Now, we have a handbook, some data and more to come - joint work with EUROSTAT and statistical offices from the US and Canada.

The future

- New projects?
- New members?
- New focus?
- Does ICE have a nature lifespan?
