

# ICE Project Form

<p>Name of Project How to present policy conclusions and policy papers</p>
<p>Purpose Each ICE member does from time to time produce policy reports on various aspects of entrepreneurship. These reports are hard to do and we are often looking for new ideas on how to present the data and how to use figures to illustrate our conclusions. The purpose of this project is to do an inventory of policy reports (relating to entrepreneurship) in all ICE member countries and perhaps a few selected others.</p>
<p>Method Collect and read all reports, categorise them and make them available online, make a synthesis.</p>
<p>Creation of New Data and/or Policy Analysis No new data or policy will be produced, but a nice overview of what is available will be produced</p>
<p>Synergies with other ICE Projects</p>
<p>Tentative Work Plan and Output This could be ready for next ICE meeting</p>
<p>Duration</p>
<p>Costs (total and ICE contribution) €15 000</p>
<p>Contact Person Anders Hoffmann</p>
